2320 Bedford Ave, Bellmore, NY, US, 11710

Comments

“ I had the opportunity to get to know Delana quite well through our work together at CDPC. She was always kind and compassionate to both patients and colleagues alike. She always stopped down to my office to say hello. If it was a rough shift, she came with coffee in hand. She was always the highest level of professional, and we often shared stories of our children. My condolences to her children and family, as well as to Carlton. She was special beyond special.

“ From the first time I met Delana working at CDPC she made a lasting impression on me. From her Long Island accent to her beautiful long black hair she really stood out. But it was her strong work ethic that made me realize how extra special she really was. Delana went above and beyond taking care of the patients, especially the elderly folks who needed extra help with their self care. Eventually Delana and I became friends outside of work. We shared a history of being breast cancer survivors and we went to many events including Komen luncheons and walks, I can't think about Delana without thinking of Caulton. I also knew him from work and got to know him better through my friendship with Delana. He has been an amazing partner to her and I can't imagine how much he is going to miss her. Lastly I wanted to send my condolences to all of her family, especially her children. I hope you can find comfort in knowing how much your mother loved all of you. She would often talk about you (and her grandchildren) with so much pride. Well Heaven has gained a new very special angel named Delana. May she Rest In Peace.
