“ To the Family of Mark: I meant Mark while working at RPI. He was in the machine shop and I was in the plumbing and heating shop. I was always involved with some of the more challenging tasks which usually included 're-machining' some parts involved with the equipment. Mark was one of the few machinists who was willing to get involved in My projects. He always took on the responsibility as serious as I did and that's why we became Friends. We worked well together and developed mutual respect for each other. Mark also was into 'wood working' at the time and helped Me with several home projects. After I left RPI for another job we stayed in touch and My new employer allowed Me to use RPI's machine shop for our projects. Although we lost touch over the years I will always remember Mark for His great attitude, friendship and huge heart. My thoughts and prayers are with the Family. My He rest in peace.

“ Mark and I were both in the same class at Keveny. We had a very
small class, but a very close knit class. What I remember Mark he
was very funny, quiet in always had a nice word about someone. He
will be truly missed. God bless his family during this difficult time.
