“ To my Dad.  
I pray and wish you were at peace as you took your last breathes. As during my adult life we were not in consistent communication, I know you loved me & I loved you. There isn't a day that went by that I didn't wish for our healthy communication to continue and you be in your granddaughter's life. I understand God has other plans. You told me that as long as you walked this earth there's is NOTHING you would not do for me, your daughter. Reconnecting after various years of not speaking to one another , nonetheless we found some understanding however Los's touch which I'm saddened by. I send my condolences to Honey & the family you created and found as I will not be able to do so in person. I love you and always have.
